## EDUCATION

- National Engineering Graduate Degree in Computer Science (2nd year)** 2025 – Present  
*Institut Supérieur des Arts Multimédia de la Manouba (ISAMM)*
- Bachelors Degree in Computer Science and Multimedia** 2024  
*Institut Supérieur des Arts Multimédia de la Manouba (ISAMM)*

## PROJECTS

- AI-Powered Misinformation Detection Extension** Apr. 2026
- Built a browser extension providing AI-based credibility analysis for social media content
  - Integrated AI processing pipelines and automated workflows for content analysis and verification
  - **Tech:** JavaScript, n8n, AI Agents, Browser Extensions
- End-of-Studies Project Management Platform** Mar. 2026
- Developed a full-stack web platform for managing end-of-studies projects with role-based access for students, company supervisors, and university supervisors
  - Implemented project workflows, user authentication and collaboration features across multiple user roles
  - **Tech:** React, Node.js
- SkillSource Outsourcing Platform** 2024
- Developed a full-stack outsourcing platform connecting users with service providers
  - Implemented backend APIs and frontend features for user interactions and platform management
  - **Tech:** Spring Boot, Angular

## LEADERSHIP & COMMUNITY

- GDG On Campus ISAMM** 2025 – Present  
*Member & Workshop Instructor*
- Led a workshop teaching students how to build Chrome Extensions from scratch
- ISAMM Problem Solving Community** 2025 – Present  
*Member*
- Participated in competitive programming contests and algorithmic problem-solving sessions

## ACHIEVEMENTS

- 1st Place – Recursia Competitive Programming Contest**
- Ranked 1st among 24 teams by solving 9 out of 13 problems
- 2nd Place – Menacraft Hackathon**
- Built an AI-assisted misinformation detection solution during a 48-hour hackathon

## SKILLS

**Languages:** Python, JavaScript, Java, Dart, HTML/CSS  
**Frameworks & Technologies:** React.js, Next.js, Node.js, Spring Boot, Flutter, Supabase  
**Tools & Platforms:** Docker, Hadoop, Apache Spark, Git, GitHub, Figma, n8n  
**Concepts:** Full Stack Development, Distributed Systems, REST APIs, Competitive Programming  
**Languages Spoken:** Arabic (Native), English (Professional), French (Professional)
